

Drug Status Report

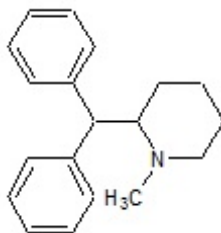

Drug: Desoxypipradrol

Drug Name Status: Desoxypipradrol is the common name

Other Name: Deoxypipradrol

Chemical Name: 2-(Diphenylmethyl)-1-methyl-piperidine

Chemical structure:

Molecular Formula: C₁₉H₂₃N

Pharmacological class / Application: catecholamine uptake inhibitor

International status:

US: The substance is not listed specifically on the schedules to the CSA. It is also not mentioned on the DEA website.

United Nations: The substance is not listed on the Yellow List - List of Narcotic Drugs under International Control. The drug is not listed on the Green List - List of Psychotropic Substances under International Control.

Canadian Status: Item 7 of Schedule IV to the CDSA is, "Pipradrol and any salt thereof." Desoxypipradrol is not a salt of pipradrol. It is also not structurally similar to any other substance listed on the schedules to the CDSA.

Recommendation: Desoxypipradrol is not included in the schedules to the CDSA and is not a controlled substance.
