

STATUS DECISION OF CONTROLLED AND NON-CONTROLLED SUBSTANCE(S)

Substance: Methyl phenylacetate & Isobutyl phenylacetate

Based on the current information available to the Office of Controlled Substances, it appears that the above substance is:

Controlled
Not Controlled

under the schedules of the *Controlled Drugs and Substances Act* (CDSA) for the following reason(s):

- These substances are esters of Phenylacetic acid.
- Phenylacetic acid is listed in Schedule VI of the CDSA under "Part 1 - Class A Precursors - 12. Phenylacetic acid and its salts".
- An ester is a derivative and not a salt.
- Therefore these substances are not controlled as they are not salts of Phenylacetic acid.
