Drug Status Report

Drug: HU-243

Drug Name Status: HU-243 is the common name.

Other Names: 3-Dimethylheptyl-11-hydroxyhexahydrocannabinol

Chemical Name: \((6aR-(6a\alpha,8\beta,9\alpha,10\alpha\beta))-3-(1,1\text{-dimethylheptyl})-6a,7,8,9,10,10\alpha\text{-hexahydro-1-hydroxy-6,6-dimethyl-6H-dibenzo(b,d)pyran-9-methanol}\)

Chemical structure:

![HU-243](image1)
![delta9-THC](image2)
![delta8-THC](image3)

Molecular Formula: \(C_{25}H_{40}O_3\)

Pharmacological class / Application: cannabinoid receptor agonist

International status:

US: The substance is not listed on the schedules to the US Controlled Substances Act.

United Nations: The substance is not listed on the Yellow List - List of Narcotic Drugs under International Control nor the Green List - List of Psychotropic Substances under International Control.

Canadian Status: Item 1 of Schedule II to the CDSA is, “Cannabis, its preparations, derivatives and similar synthetic preparations including:”. Six chemical substances are listed under this heading: cannabidiol; cannabinol; nabilone; pyrahexyl; tetrahydrocannabinol; and DMPH. The chemical structures of HU-243, \(\Delta 9\text{-THC}\) and \(\Delta 8\text{-THC}\) are shown above. HU-243 is a synthetic substance that is structurally similar to other cannabinoids listed in Schedule II to the CDSA.
HU-243 is also a cannabinoid receptor agonist\(^1\).

Status decisions have been made on several other cannabinoid receptor agonists and antagonists. See decisions for anandamide; methanandamide; WIN 555212; JWH 015; O-2050, CP55940, AM630, AM251 and SR 141716A. Cannabinoid receptor agonists have been declared to be included within item 1 of Schedule II to the CDSA by virtue of being “similar synthetic preparations.” Cannabinoid receptor antagonists have been declared to fall outside item 1 of Schedule II to the CDSA. Based on the similarity of its structure to the cannabinoids listed on Schedule II to the CDSA and its activity as a cannabinoid receptor agonist, HU-243 should be considered to be included in Schedule II to the Act.

Recommendation: HU-243 is included in item 1 of Schedule II to the CDSA and is a controlled substance.
