- ± 20mg NT ±
- + 25mg NT + 9:30AM=[0:00] 2/26/79 aware [0:45] quite exhilarated - to a + [2:15] noticeable drop [2:30] out.
- ± 30mg ATS 3/26/81 8:23AM=[0:00] [:45] ±? [1:45] clear. at best ±
- ± 35mg ATS 5/4/81 9:20AM=[0:00] [:30] aware, to ± quite real - continue to [1:30]. then little if anything. Very peaceful of body throughout afternoon. On [with] ease.
- +1.5 50mg ATS 5/8/81 10:35AM=[0:00] [:30] alert [1:00] to honest + or maybe a bit more - thoughts very erotic. Completely functional - no visual but delightful awareness of an effect [2:30] noticeable drop. [4:30] out - very distressing in body.
- ++ 75mg ATS 5/10/81 7:40PM=[0:00] AP ≡. Already aware at [:15] - a bit like LSD in the onset. [:30] development quite quickly to a ++ by [1:00]. very comfortable - no visual whatsoever, but extreme tactile sensitivity - erotic, warm close feelings. Some fantasy to music (AP > ATS), pictures do little. Some drop noted at [3:00], both in intensity (from sl. >++) and in sensitivity - Drop to extremely relax, good body feeling of ~+ by [5:00] and drift into excellent, deep sleep. AP busy dreams. AM, refreshed, active, without deficit.
