

primer studies ([from 336](#)) (to 469)

- +++ 8/17/80 MDMA->LSD (120mg, at [6:00] 125µg LSD), AP≡: Still at ~± [with] MDMA. extremely rapid onset (effects, quiet, at [0:25][0:35] pulse to 116. rapid development, lost in tangle of legs, ect to [3:00]. Kitchen break. full +++ . sparkles, rainbows, beautifully stoned. Break again [6:00] light eating (cheeze, grapes) extremely thirsty - still ~ +++ or a little down. exhausted - easy sleep. AM - energetic, no residue - completely clear- It seems as if the LSD added right onto the MDMA - no refractory aspect at all. Erotic but org. impossible.
- MDMA->LSD [6:00] [see 378](#)
 MDMA->LSD [1:30] [see 398](#)
 MDMA->LSD [1:30] [see 405](#)
- ++(.5) 2/20/81 MDMA->Pot. ATS, AP, LM, KT; MDMA all, 120+40 over -[7:00-3:00]; here 10:40PM=[0:00] sweet sens. ex KT - wine-bubble pipe.
 3 deep tokes 10:40-10:50 [:00] aware [:15]
 11:00-11:15 [:20] sudden distinct ^ but fallen [0:30]
 11:20-11:30 [:40] [:50] to good sound ++
 between [:50] and [1:20] (11:30PM->12AM) considerable time distortion - up from table, KT to car for tents, LM to tent site - set up, into house, back out, to house AP in Bath R.time estimates & stop clock (ATS 3:1, AP 2:1); bed 1:30 - lights off. [1:30-2:30] super erotic - continuing time distortion both slow, extended org! good sleep, awake at [6:00] - quite alert - sleep to [9:00] refreshed, energetic. ++.5.
- ++ .5 3/27/81 MDMA->LSD (120+40->125µg@[7:00]) 8:00PM=[0:00][:15] aware, hand tremor [:20] starts - pulse 100; [:35] to ++ already. [4:30] some dropping following 4 hrs of eroticism - fantasy to sex and music. Somewhat depleted - AM v.hungry- easy sleep - ATS up after 8 hrs sleep - no price whatsoever - excellent base-line ++.5
- ++ 4/5/81 MDE (MDMA)->LSD (150+50;+120) at as early as [-10:00] ([see p.412](#)) 10:37PM=[0:00] 125µg [:20] aware [:40] to +, eventual to ~++. Wildly erotic, not too stoned (~++ at most) [4:00-5:00] some mixed-up fantasy & sleep [5:30] up for pee, cake, salad - easy real sleep to [11:00] - arousable again, but org. impossible throughout. Good AM baseline - coordinated energy. AP also. overall ++, too long a wait between primer & LSD.
- ++ .5 5/25/81 MDE->LSD (150, +120) AP, ¹ATS; MDE at [-6:30] q.v. [:25] aware, quiet development, [:40] developing [1:20] to ++ or ++.5. Try chess - surprisingly calculatable game - to bed [with] some (ATS) and much (AP) fantasy to sex and music. Extraordinarily arousable & erotic, orgasm impossible ATS possible, intense AP - drift to sleep at ~[5:00] - AM. arousable, energetic.
