Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR part 900), notice is hereby given of the filing with the hearing clerk of this recommended decision with respect to proposed amendment of the marketing agreement, as amended, and Order No. 929, as amended (7 CFR part 929), regulating the handling of cranberries grown in the States of Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Oregon, Washington, and Long Island in the State of New York, hereinafter referred to collectively as the “order.” The order is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601-607), hereinafter referred to as the “act.”

2. Changing the requirements with respect to submission of the names of nominees from two to one or more for each committee position to be filled; and authorizing the Secretary to consider other qualified persons;

3. Providing representation on the committee for all growers in District 4 (Oregon and Washington) who are not affiliated with the major cooperative, and allow them to participate in nomination proceedings;

4. Providing authority for the committee, with the approval of the Secretary, to levy a late-payment charge and an interest charge on assessments that are not paid within the time specified;

5. Clarifying the withholding provisions so that each handler and the committee can more easily and accurately determine the withholding obligation;

6. Liberalizing the provisions dealing with interhandler transfers to permit handlers to transfer cranberries freely to other handlers, and require each handler to report such transfers to the committee twice each year;

7. Elimination of the requirement for inspection of withheld (restricted from marketing) cranberries, when such cranberries are released to the handler in accordance with the special provisions of the order relating to withheld cranberries; and

8. Making conforming changes.
