Regulatory Impact

This proposed rule is a technical amendment conforming to changes in JTPA reporting requirements. As such, it does not have the financial or other impact to make it a major rule, and therefore, the preparation of a regulatory impact analysis is not necessary. See Executive Order No. 12291, 3 CFR, 1981 Comp., p. 127.

The Department of Labor has notified the Chief Counsel for Advocacy, Small Business Administration, and made the certification pursuant to 5 U.S.C. 605(b) that the proposed rule will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act. The reports under the rule are to be made by States, which are not small entities as defined under the Regulatory Flexibility Act.

Paperwork Reduction Act

This proposed rule changes an information collection requirement previously approved by the Office of Management and Budget pursuant to 44 U.S.C. 3501 et seq. The applicable reporting requirement for grantees would no longer be limited to an annual period. As would be permitted by the proposed rule, the Department of Labor is requesting OMB's approval pursuant to the Paperwork Reduction Act, for the report to be made semiannually.

The Administrator of the Drug Enforcement Administration received a letter dated December 18, 1985 regarding quazepam and another letter dated January 13, 1986 regarding midazolam from the Acting Assistant Secretary for Health, on behalf of the Secretary of the Department of Health and Human Services, recommending that each substance be placed into Schedule IV of the Controlled Substances Act (Title II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 [21 U.S.C. 801-966]). Enclosed with each letter from the Acting Assistant Secretary was a scientific and medical evaluation which listed the factors which the Act requires the Secretary to consider, and summarized the matters considered by the Acting Assistant Secretary in recommending the control of quazepam and midazolam under the Controlled Substances Act. In his letters, the Acting Assistant Secretary requested that the Drug Enforcement Administration delay the publication of the proposed rulemaking until notification of final approval by the FDA. The Drug Enforcement Administration has been advised that the NDA approval letters have been forwarded to the sponsors of each of the drugs in question, and that FDA recommends that the rulemaking procedures be initiated.
