active 10-15mg

- ++ 20mg 5/18/78 7:50AM=[0:00][0:40] something nice but subtle starts [1:00] a subtle +, basic; very nice - I wish it were more intense. [1:30] real + intense ej [1:35] between + and ++, but I can do anything. - weed chop. rest lost.
- (±) 25mg 5/22/78 9:45=[0:00][0:30] micro-alert [0:50] slow development [at best ± yesterday aleph-4 - prophylactic? [1:30] dead at ± - [see 267](#).
- +++ 25mg 6/7/78 6:03PM=[0:00][0:45] start - eat light dinner. [1:15] Physical to +++ mental to ++ - I think I am going to like it, but at the moment I am not sure. [1:50] body, not genital org. !!! I am +++ stoned. [2:40] weed chop - intense reflection. [3:00] off of +++ easily arousable [3:20] down to [1:15] point, but this isn't too far down. [4:00] almost out (!) - [5:00] out. Impressive experiment.
- ++ 25mg 6/10/78 11:00PM=[0:00] (+3 25 20 20) mental & physical to ++ at [1:20] pers. conflicts intense oriental mask hallucination in tub [4:00] virtually out - overall ++.
- + 20mg 8/19/78 9:50AM=[0:00][0:40] sl.aware - gentle development [1:10] between + & ++ walk to entrance, no mail [1:40] +, no more [2:00] intense ej. [3:00] Violet call - busy - and quite sober - virtually out.
- + 20mg 9/9/78 10:AM=[0:00][0:30] sl.alert in head [1:00] to a nice + [1:20] erot! -[2:00] sl.slowng for Kangas - effects somehow lost. overall light, good.
- ++ 25mg 11/18/78 old pink XVI-43 2:05=[0:00].[0:40] some alert [1:00] to a subtly obtained + or even ++ [1:40] good ej, at ++ - try typing. [2:10] start down? still at a body ++, but mentally never quite there.
- + 25mg 1/27/79 (NT, CT 25) 1:15=[0:00] - develop from [0:45]to[1:15] to relaxed, pleasant + to ++. Slight intox, CT. [with] some chills. Escher. Abrupt descent from [3:00]to[4:00] Quite hungry - excellent appetites. Very mellow and completely relaxed. NT, CT. sl.headaches. which clear [with] food.
