

- 3mg 2.0mg@12:50=[0:00] 7/30/81 [0:55] vague awareness? +1.0mg at [1:05]. nothing more whatsoever. n.e.
- ± 8mg 5mg@12:05=[0:00] 8/3/81. aware? [1:00] [1:05] +3mg. aware! through [3:00]. maybe ± - probably -.
- 12mg 8/7/81 ATS 11:46AM=[0:00] [1:05] maybe aware? [1:30] maybe? [2:00] nothing.
- 18mg 8/11/81 ATS 3:30PM=[0:00] [1:40] aware? no nothing.
- ± 30mg 8/14/81 ATS 1:15PM=[0:00] [:45] aware? [1:10] ± [1:15] ±? [2:10] easy er. still ± maybe +? [3:00] maybe ± [5:00] nothing.
- + 40mg 8/17/81 AP 12M=[0:00] [0:40] aware? no! [1:30] edginess, sleepy, light threshold [2:00] wants to lie down. Body awareness. [3-4] - sleeping [with] possible dreams. very lethargic. [6:00] trace still. [8:00] nothing. + as sedater.
- + .5 55mg 9/5/81 ATS 12:15PM=[0:00] [:40] aware[?] [0:50] aware[!] [1:00] to a certain +. fine tremor [2:30] still tremor - some aguardness writing - perhaps +.5 [3:00] explore erotic - modest erectability - easy og. [3:30] lab again - not 100% efficient - [4:00] still + [5:00] still aware, ± [7:00] still aware, ± [8:00] probably out - overall quite favorable.
- +++ (<) 70mg 3/24/82 ATS; AP ≡ 8:15PM=[0:00] Awareness at [:20]!. [:45] AP > +, diarrhea, not so ATS. [1:00] pushing ++ [1:30] AP a rolling >++ [2:00] both at ~+++ , a bit below? To bedroom. Erotic. [4:00] org impossible (ATS) - v.tactile - eyes closed - both imagery and (mainly) fantasy - not completely benign - very rich, good fit to music - not too much insight, [8:00] still = or > ++. sleep impossible - one is exposed and vulnerable, need guards against fantasy. Fitfull sleep at [8] [12] still not baseline - no deficit for loss of sleep. Good energy. overall ~+++ . Up, if at all, with much caution. Considerable body load.
- +++ 80mg 4/8/82 AP ≡ 7:10PM=[0:00] aware [:30], [45] developing slowly, quietly. [1:00] to ++ [1:30] pushing +++ [2] +++ philosophy in front room. Not the visual, the psychedelic of MAW. From [2->8], erotic, discussions eg the art of molecules, origins of the universe, similar weighty trivia. [10] first ability to lie still unguarded - catnaps to [12] - up - still + - no good baseline until maybe [18] sleep at [28] completely reintegrates. Dosage a bit high. 70 better.
